Price	60 $	120 $	200 $	350 $

C - CPU only   G - one GPU device   G2 - two GPU devices   Gn - more than two GPU devices

Description

Short:

«Truly fast recovery of lost passwords for Microsoft Office 95-2010 and OpenOffice documents of all versions and on any computer.»

Full:

«Accent OFFICE Password Recovery was created to save your time when recovering lost Microsoft Office and OpenOffice passwords. All of its aspects are optimized for this purpose: performance, flexibility and ease of use.

Performance. Accent OFFICE Password Recovery demonstrates blazing speed on any Intel or AMD processors. When using GPU-assisted calculations on AMD and NVIDIA video cards, the speed rises dramatically and the program needs 40 times less time to fulfill the same tasks!

Flexibility. When searching for passwords, Accent OFFICE Password Recovery uses one of the three methods: brute force attack, mask attack and dictionary attack. The efficiency of these methods can be further improved using the program's unique functions: extended mask creation rules and a macro language for describing the rules of mutation of passwords from dictionaries.

Ease of use. Accent OFFICE Password Recovery is equally suitable for professionals and novices. A multi-language interface, an intuitive system of dialogs and a built-in automatic password search guarantee a quick start for all users.

Format support. Accent OFFICE Password Recovery supports all versions of OpenOffice documents and finds passwords for opening them. Accent OFFICE Password Recovery supports the Microsoft Office 95-2010 format and recovers passwords to open, passwords to save, MS Excel sheet protection passwords and other types of passwords. The most up-to-date list of supported password types can be found on the product page.

Accent OFFICE Password Recovery is the best password recovery solution that will get the job done and save you a great deal of time.»
